BALLANTYNE, Charles Colquhoun = Minister of Marine and Fisheries; February, 1919 (029)

February 25th, 1919

The Honourable C. C. Ballantyne,

Minister of Marine and Fisheries,

Ottawa.

My dear Sir:

One of our undergraduates who took high scholarship standing in his undergraduate career has been working as a wireless operator for the period of the war in the Naval service and has been for some time kept with his ship near Venice. It is a great waste of time for such a well equipped young man to be kept doing nothing, and I am writing to say that I hope that he may be returned within the next few months in order that he may get ready for his university work. The loss of time for such a young man as this is more serious than for one who can return immediately to business. His name is Robert Scott, and his address is 259 Broadview Avenue, Toronto.

I am,

Yours sincerely,

President.
